

Pre-Survey

Please complete the survey below.

Thank you!

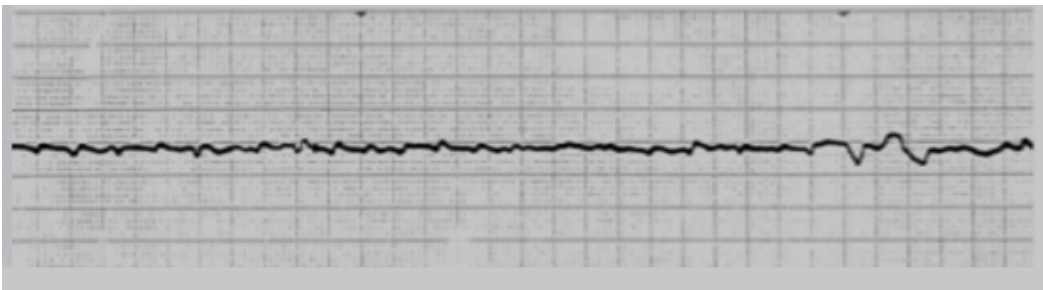

Pre-Session Attitudes

- | | |
|--|---|
| 1) Rate your confidence that you can reliably facilitate delivery standard of care resuscitation for an in-hospital cardiac arrest? (meaning, almost every time you lead a code, patients receive the standard of care) | ☐ 1
☐ 2
☐ 3
☐ 4
☐ 5
☐ 6
☐ 7
☐ 8
☐ 9
☐ 10 |
| <hr/> | |
| 2) Rate your confidence that you can reliably facilitate delivery standard of care resuscitation for rapid response/MET? (meaning, almost every time you lead a rapid response/MET, patients receive the standard of care) | ☐ 1
☐ 2
☐ 3
☐ 4
☐ 5
☐ 6
☐ 7
☐ 8
☐ 9
☐ 10 |
| <hr/> | |
| 3) Rate your confidence that you can interpret a rhythm strip and making a decision to provide appropriate standard of care? (monitoring, pacing, cardioversion, defibrillation, etc) | ☐ 1
☐ 2
☐ 3
☐ 4
☐ 5
☐ 6
☐ 7
☐ 8
☐ 9
☐ 10 |
| <hr/> | |
| 4) How often do you think you'll have problems with team dynamics on Code Blue / Rapid Response teams? | ☐ 1
☐ 2
☐ 3
☐ 4
☐ 5
☐ 6
☐ 7
☐ 8
☐ 9
☐ 10 |

- 5) How likely are you to call for an attending to join you for a rapid response if one isn't already there?
1. Almost never, 5. sometimes, 10. almost always.
- ☐ 1
☐ 2
☐ 3
☐ 4
☐ 5
☐ 6
☐ 7
☐ 8
☐ 9
☐ 10

Pre-session experience:

- 6) Roughly, how many code blues have you been to as an intern (best guess)? _____
- 7) Roughly, how many rapid responses/METs have you been to as an intern (best guess)? _____
- 8) Have you led either a rapid response or a code blue as an intern? How many? _____
- 9) How many times have you led a simulated/scenario code blue or rapid response in training? _____
- 10) Have you been involved in the decision to urgently/emergently cardiovert a patient?
☐ Yes
☐ No

Knowledge Assessment

- 11) 2 minute pulse check shows the above image. What is the next step?
☐ Cardiovert
☐ Defibrillate
☐ Transcutaneously pace
☐ Resume compressions
- 12) A patient on the floor experiences flash pulmonary edema. Oxygen needs go from 3L nasal cannula to 15L nonrebreather. What is the best next immediate step?
☐ call the ICU team
☐ call a code blue
☐ start patient on bipap
☐ move immediately to the unit
- 13) Bringing family in to observe an attempt at resuscitation has been shown to: [select all that apply]
☐ increase ROSC rate
☐ decrease ROSC rate
☐ increase PTSD in the family
☐ decrease PTSD in the family
